

Prince of Peace

Lutheran School

July 23, 2020

After carefully monitoring the public health situation, listening to public health experts, and considering the concerns of School families and School staff, the Prince of Peace School Board and the School Principal concluded that it is not safe to reopen the Prince of Peace Preschool and Kindergarten this fall. The Board's primary concern is the safety and well-being of our School children and their families as well as the safety of School teachers and staff. The School Board will continue to monitor public health trends and consult with experts to reopen the School when it is safe to do so.
